Tuesday, October 2. The committee reviews and writes SAE Standards used in the design, test and manufacture of off-highway and forestry HVAC systems. Standards discussed include J153 (Operator Precautions), J3023 (Charge Determination) and J3078 (Operator Environment), among others.

Joey Rosato joins Texas Truck A/C as director of marketing

Texas Truck A/C, Inc. is proud to welcome Joey Rosato to the team as director of marketing. Joey recently graduated from the Jerry S. Rawls College of Business Administration with a double major in Management and Marketing. After growing up around Texas Truck A/C as the son of CEO Nick Rosato, Joey feels that he is well prepared to take the company brand to a new level. The opportunity to help grow business at Texas Truck A/C is limitless, as it is currently in its most extreme growth stage ever, with a brand-new facility set to open in early November. This new state-of-the-art facility will feature an enlarged shop space and an independent parts warehouse. A more formidable facility is in high demand, as fresh business avenues have placed the company in an advantageous position. With a strong team accounting for unprecedented in-house knowledge, Texas Truck A/C holds a bright future in the mobile air industry.

Trans/Air Announces Changes to Warranty Department

Trans/Air Manufacturing Corporation, Dallastown, PA, USA-based leader in transportation climate control design, manufacture, and installation, announces personnel changes in the warranty department.

Jeff Kochenour has announced his retirement effective September 2018. Jeff has been with Trans/Air for 11 years, all in the position of warranty manager. Jeff has handled the warranty department with care, striving to serve each and every customer in a professional and timely manner. He will be missed, and we wish him all the best in his retirement years!

Craig Smith will be promoted to warranty manager. Craig has worn many hats during his 30+ years at Trans/Air. With experience in production, installation, field service and technical assistance, Craig's transition into the position of warranty manager is a perfect fit.

Jennifer Wagner will continue in her current position of warranty administrator. Jennifer has 13 years of experience at Trans/Air

with 9 years in warranty. Jen will work with Craig to continue the level of warranty service customers expect from Trans/Air.

Trans/Air manufactures a full line of climate control systems. Units, parts, service, warranty, and new or aftermarket installations are available through factory owned operations or a network of distributors throughout North America. To obtain a quote or for additional information on any of Trans/Air's products and services, please visit our website at www.transairmfg.com ❄️
